-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

In order to set forth new grounds of rejection, this application has been returned to non-final status.

MPEP 2308.03 Interference Proceedings, Estoppel Within the Office

1. If a party loses on an issue, it may not re-litigate the issue before the examiner or in a subsequent Board of Patent Appeals and Interferences (Board) proceeding. The time for the party to make all pertinent arguments is during the interference, unless the Board expressly prevented the party from litigating the issue during the interference.
2. There are two main types of interference estoppel. First, a losing party is barred on the merits from seeking a claim that would have been anticipated or rendered obvious by the subject matter of the lost count. *In re Deckler*, 977 F.2d 1449, 24 USPQ2d 1448 (Fed. Cir. 1992); *Ex parte Tytgat*, 225 USPQ 907 (Bd. Pat. App. & Inter. 1985). Second, a losing party is procedurally barred from seeking from the examiner relief that could have been--but was not--sought in the interference. 37 CFR 41.127(a)(1); *Ex parte Kimura*, 55 USPQ2d 1537 (Bd. Pat. App. & Inter. 2000) (reissue applicant estopped to claim compound when patentability of that compound could have been put in issue in interference where opponent's application also described compound).
3. Claim 22-44 are rejected as being unpatentable under the principles of *res judicata* and *collateral estoppel* (*In re Deckler*, 977 F.2d 1449, 24 USPQ2d 1448 (Fed. Cir. 1992)).
4. Prosecution in the instant application was suspended pending the out come of Interference No. 105,092. The interference was decided September 16, 2005. The instant application and US Pat. No. 6,437,064, the losing party of the interference proceeding, are commonly owned. In the decision, claims 1-3, 6-19, and 22-39 of US Patent No. 6,437,064. were held unpatentable (last page of document).
5. A double patenting rejection was made and a terminal disclaimer was filed between the instant application and patent number 6,437,064; this clearly establishes the relationship between the claims of the patent and instant application.

Art Unit: 1773

6. Claims 22-31 and 39-42 of the instant application are directed to the same invention as claims 1-3, 6-19, and 22-39 of 6,437,064. The claims lost in the interference include five-layer structures comprising a barrier layer and surface layers containing single site catalyzed polyolefin. The instant claims cover multilayer structures having a barrier layer and surface layers comprising single site catalyzed polyolefins, where the adhesive layers are optional (claim 41).

7. Claims 32-38 and 43-44 of the instant application are obvious variants of lost count as it would have been obvious to vary the thickness of the film layers depending on the end use of the film.

8. The examiner also notes that the subject matter of claims 22-44 correspond in concept to claim 22 of patent number (5,604,043) which is owned by Cryovac, the senior party in the decision of the interference. This claim would render obvious the use of materials such EVOH as a barrier material, the comonomers claimed based on the disclosure of the patent and claims. See column 6, lines 3+, for the use of EVOH as set forth in the applicants claims.

9. For the reasons set forth above, the applicants are not entitled to claims 22-44 of the instant application.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. Lawrence Tarazano whose telephone number is (571)-272-1515. The examiner can normally be reached on 8:30 to 6:00 (off every other Friday).
